Authorization for this examiner's amendment was given in a telephone interview with Tomoki Tanida (L0098) on 4/25/2006.

The following changes have been made to the subject application:

Line 3, "means correspond to" has been changed to --is--.

The Examiner's amendment has been made in order to comply with the 35USC 112, second paragraph and to place the application in a condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the amendment filed 4/10/2006 and the telephonic interview on 4/25/2006 have overcome the technical deficiencies and the prior art of record. The prior art of record fails to teach or fairly suggest a combination of a selector for selecting one of the inverted signal and the non-inverted signal from the electronic apparatus, calculating means for adding a value corresponding to said error signal to said input signal wherein said calculating means includes a counter (claim 3), calculating means includes an adding and subtracting circuit (claim 4). Therefore, claims 3-4, 6-12 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
